From Principal desk

It's my immense pleasure to handover the fifth Newsletter with full of variety of colourful achievements, SSR Memorial Trust's SSR College of Education is accredited by NAAC, Bangluru, with 'B+' grade and the CGPA is 2.72 which is the result of the sincere efforts done by all the stakeholders, right from Honourable Chairman of SSRMT Shri. Abhinav Delkar, the management, all teaching and non-teaching staff Alumni and present students. It shows that our college is a symbol of progressive and quality Education. Our motto is to provide, 'the Best Teaches' whose personality is all rounded, so that they could contribute to build the good citizens of tomorrow through their teaching in schools.

Our college is scaling new heights with excellent and reputed professional training. The Holistic Development helps them to be the Great human being, to survive in the modern world.

We are a team of dedicated teachers and non-teaching staff, who are committed to the welfare of the society. The importance of instilling good moral values in our student teachers in a manner that they get the exposure and they reach up to their optimal potentials. They acquire all necessary skills for the 'good teacher' as well as develop all rounded personality.

Einstein Remarked, 'Education is not so much the feeding of facts into the mind as the awakening of curiosity in the soul' We try to create our student teachers to be lifelong learners.

Activities like 'Sports Meet', Handwritten "Spandan magazine, various days celebrations, Nirbhaya kanya Abhiyan, Yoga for health, field visits to industrial area, Nature places, Excursion, traditional days celebration, rallies, Swachhata Abhiyan and many more always help them to build confidence and to be 'SMART Teachers'.

I congratulate the Editorial team for their continuous efforts to publish Vth Newsletter. My best wishes for grand success to the teachers and students of SSR college of Education in their future endeavours.

Thanks !

Artificial Intelligence in Education

Education is an important part of life for everyone, and a good education plays a vital role to have a successful life. In order to improve the education system for the students, there are always a lot of changes happening around the world, ranging from the way of teaching to the type of curriculum. Artificial Intelligence is a thriving technology that is being used in almost every field and is changing the world. One place where artificial intelligence is poised to make

Artificial Intelligence in Education is developing new solutions for teaching and learning for different situations. Nowadays, AI is being used by different schools and colleges across different countries. AI in education has given a completely new perspective of looking at education to teachers, students, parents, and of course, the educational institutions as well. **AI in education is not about humanoid robots as a teacher to replace human teachers, but it is about using computer intelligence to help teachers and students and making the education system much better and effective.** In future, the education system will have lots of AI tools that will shape the educational experience of the future. In this topic, we will discuss the impact and application of Artificial Intelligence on Education. To better understand this topic, let's first understand what AIED is?

Overview Of AIED(Artificial Intelligence in Education) Artificial Intelligence (AI) is a simulation of human intelligence into a computer machine so that it can think and act like a human. It is a technology that helps a computer machine to think like a human. Artificial Intelligence aims to mimic human behaviour. AI has various uses and applications in different sectors, including education.

In the 1970s, AIED has occurred as a specialist area to cover new technology to teaching & learning, specifically for higher education. The main aim of AIED is to facilitate the learners with flexible, personalized, and engaging learning along with the basic automated task. Some popular trends in AIED include **Intelligent tutor systems, smart classroom technologies, adaptive learning, and pedagogical agents.**

Artificial Intelligence : A Boon or curse ?

Artificial Intelligence (AI) has emerged as a transformation force in the technological landscape, revolutionizing various industries. Artificial Intelligence refer to the development of the computer systems capable of performing tasks that typically require human intelligence. AI which would possess human like cognitive abilities across various domain. From problem solving to learning and language comprehension.AI is transforming how we interact with the technology.

“Like every coin has two sides, similarly the artificial intelligence has two sides of pros and cons.”

Is artificial intelligence a **Boon to the society** :-

- ◆ AI has provided advantages and benefits not seen before in the society.
- ◆ AI is leading to efficiency for completing the tasks faster and more accurately than humans.
- ◆ AI is the system which is available 24/7 contributing to constant availability and productivity.
- ◆ AI is used in business, science and social science domains to excels at processing vast data quickly extracting valuable insights and patterns.
- ◆ AI has enhanced in the Security, Medical, Advancements, Innovations in various industries, personalization and Improve accessibility Tutoring and Grading.

Is artificial intelligence a **Curse to the society** :-

- ◆ AI has lack of human lack ability and the use of ‘**Emotion**’.
- ◆ Chat box and robots are replacing humans.
- ◆ AI applications are making humans lazy by doing all tedious and repetitive jobs.
- ◆ Ethics and morals are being violated which is wiping out Humanity.
- ◆ Neither computer nor machines have feelings, AI generates emotionless domains.

“Do you think AI can replace the humans entirely?”

Conclusion :- Since AI is considered boon as well as curse and also it depends on mankind to decide it's worth.
